Spice And Wolf, Vol. 5 - Light Novel

Synopsis

Arriving in the town of Lenos, Lawrence and Holo take a respite from their travels north - but a true businessman never rests! It isn't long before an opportunity for profit presents itself to Lawrence, one that could fulfill his dreams of owning his own establishment. But as always, the promise of great reward carries great risk - and risk is never greater than when one plans to use a wisewolf as collateral! As Lawrence and Holo feel the ties binding them stretched thin, has the time come for the pair to go their separate ways?

Finally the events post season 2 are being told. I have been waiting for this release for a long time and couldn't wait to read about what happens after the crazy events that took place previously. This also starts right after the last book ended and you feel a sense of urgency right at the start. Kraft and Holo talk about the events that happened in the fifth book and what that might mean for the future. The boy they meet, Col, is quite an interesting character and we get to see a side to Kraft and Holo that is actually quite amusing. Speaking of which; it really seems throughout the series so far that the characters are slowly changing. The author does a good job in creating character development and makes me wonder how much more knowledge the characters will get by the end of the series. While no action really happens in this novel, I still found it to be a really fast pace reading. It could be the fact I have wanted post season 2 story for a while now, but I was really sucked into the story and never got bored. Character interaction really shines in this issue and so

many really cool people are added. Most of them are just secondary characters, but most are really unique and interesting. The setting descriptions laid out by the author are really well written and easily imaginable. I never found myself confused or had a hard time in trying to visualize what is happening around them. I think this is the first time shipping is introduced into the series. Lots of details are given into the boating and goods process and the mercantile benefits to using it (with the Kraft Lawrence in-depth descriptions about it). Just like the other novels random illustrations are added at key moments of the story.
