## Customer Reviews

This is the second book I have read by this author and I have to say it is the best. After reading *Blind Love* I do not know what I expect but it sure wasn't this. The author gives you adventure with many twist and turns. Things are not always as they seem for sure. This is really an outstanding read of survival, getting even, taking back your life, facing your fears as you face your past which you have lost and learning to start over again when you do not know which way to turn. I can't even image going through what Alisha did. It would be bad enough being taken but to being taken to another country where everything is so strange you wouldn't know which end is up. To live day to day in a country you do not even know their language with no friends to talk to only a doctor and your husband who isn't your husband would be ungodly. Than to be taken and beaten over and over again for little or no reason is just mind blowing. What this author gives you is a well told story with a wonderful plot of one women and how she survived building a new life and a new family that gave her the reason to carry on. Alisha is a sweet wonderful caring lady that gives so much of herself to everyone. She has a wonderful husband who adores her. A loving family that bring a smile to her face with their love. She has the best and everything any women could want until the day she walked outside and someone took her to a new country, killed people in front of her and became her worse nightmare. She prays for someone to come get her and take her home. She prays for the love of her life until the day she sees a picture and knows her life is over. She has nowhere to go, no one to love and no reason to live until the day she built her new family from those around her that are going through the same thing she is.
