Fixed And Removable Dentures E Chart: Full Illustrated

FIXED AND REMOVABLE DENTURES

Dentures are artificial devices used to replace either partially or totally the missing or lost or natural dental parts. They give a constant support to the teeth and allow the jaws, which are the structures that contain the teeth and provide stability and mobility to the mouth, to maintain the relationship between them.

STEPS TO PRODUCE A REMOVABLE DENTURE (COMPLETE PROSTHESIS)

Customer Reviews

I wanted to use this pamphlet with my students, however, there are many misspelled words. I would not recommend it.
